

StealthTouch

a value you can touch

innovative

The StealthTouch is a state-of-the-art All-in-one touchscreen computer powered by Intel, and is designed to withstand harsh and demanding environments. Every StealthTouch's screen is protected against liquid spills, and can withstand millions of touches. StealthTouch's innovative and flexible design allows easy customization to meet your specific requirement and budget.

value

The StealthTouch is designed to offer longer shelf life than many other brands. The same model of StealthTouch will generally be available for a minimum of 4 years*, which allows large roll outs to instal the same product over a period of time. The StealthTouch also offers a minimum of 5 years* of serviceability. These benefits will reduce your support overhead, and lower your total cost of ownership.

compact

The StealthTouch's small footprint will save your premium counter space. Plenty of peripherals can be integrated to the StealthTouch, such as magnetic card reader, biometric reader, proximity reader, secondary display, barcode scanner, and thermal printer. The StealthTouch can be easily wall mounted, and has a depth of less than 3.5".

versatile

Each StealthTouch can be configured as diskless thin client. It also has enough power to run complex applications under Windows XP Pro or Windows 7. With plenty of Serial and USB ports available, you can connect a wide range of peripherals to the StealthTouch. Its powered USB ports can supply power directly to some peripherals, eliminating the need of external power supplies. A privacy filter can be integrated to provide additional security to sensitive information.

StealthTouch / S-Line

Redefining the All-In-One with a built-in printer

Innovative all-in-one design providing a state-of-the-art solution

Built-in 3" Thermal Receipt Printer with front-load paper

Integrated Magnetic stripe and Biometric reader

Compact footprint to save counter space

The S-Line is a state-of-the-art touchscreen solution with a built-in thermal receipt printer. Its compact design will save your precious counter space, reduce cable clutter, and allow quick setup. With the extra counter space, you can generate additional revenue by displaying advertisements or selling merchandise.

Try the S-Line today and set yourself apart from the competition!
